Invasive Non-Native Species Recording Form

If you have seen any invasive non-native species in central Scotland, please fill in the form and send it to: emilie.wadsworth@csgnt.org.uk. Don't worry if you can't fill in everything, or it is applicable, all records are valuable. Grid references can be obtained from http://www.wildlifeinformation.co.uk/recording_gagr.php

Feel free to attach any photos to you form, especially if you would like your identification confirmed.

Name	
Email	
Date of sighting	
Location	
Grid Ref	
Species	
Patch size (if appropriate)	
Number of individuals (if app)	
Has the patch been treated, or is there evidence of management?	
Can you tell how the management was carried out? (e.g. chemical spraying, hand pulling)	
Do you know when it was done or how often it's being done?	
And by whom?	
How successful has it been?	
Anything else of interest (e.g. evidence of breeding/spreading, mink or crayfish traps seen)	

Japanese Knotweed (©2009 GBNNSS)

Himalayan Balsam (©2009 GBNNSS)

Giant Hogweed (©2009 GBNNSS)

Rhododendron (©RPS)
